

Human Resources BW Security Model

The Human Resources security for BW is based upon the security role assigned to the user, the report and, in some cases, the characteristics displayed in the report.

User Security

User Roles

To have a Report Center tab appear in the SAP GUI, a user must be assigned the following roles:

ZPBW

ZBW_R_OPEN_REPORTS_ALL

ZBSC_MD_R_0CA_IO_NOEMPDATA

ZBP_JH_REPORT_LIBRARY_ALL

This documentation can be found on the SAP Support website at:

<http://www.jhu.edu/hopkinsone/Support/Security.htm>

The hyperlink is labeled [BW User Roles](#)

This will only allow the user to access the BW Report Center, but most reports will display “No Authorization” when executed. To successfully execute a report, the user must be assigned the appropriate role.

HR security roles can be broadly grouped as follows:

FA = Finance Admin View

PA = Payroll Admin View

TA = Time Administrator

BN = Benefits

PY = HR/Payroll Comprehensive

GN = Garnishments

PS = HR/Payroll Comprehensive - Students only

SC = Surveys Compliance

TU = Tuition

TX = Tax Administrator

(The list of HR specific roles is attached as an addendum.)

To determine what role is appropriate for a user, it is necessary to consider three things:

1. What is the focus of the user's job responsibilities (PA, BN, PY)?
2. What restricted data (if any) should the user be able to view?
3. Should the user see that information for:
 - a. The Organizational Units to which they are assigned only?
 - b. Or an entire Personnel Area(s)?

Some attributes of 0EMPLOYEE and 0PERSON have restricted access. These attributes have been assigned to specific roles. ***The role must agree with the user role assignment and the report role assignments in order for the data to display.***

The restricted attributes are as follows:

0EMPLOYEE

- Pay Scale Group
- Pay Scale Level
- Pay Grade
- Pay Grade Level

0PERSON

- Date of Birth
- Social Security Number
- Ethnic Origin
- Military Status
- Veteran Status
- Challenge Date
- Address Line 1
- Address Line 2
- Telephone Number

The table below displays which role will reveal the restricted data.
(X indicates that the data displays)

Attr	Description	FA	PA	TA	BN	PY	GN	PS	SC	TU	TX
0EMPLOYEE	Pay Scale Group		X			X		X	X		
	Pay Scale Level		X			X		X	X		
	Pay Grade		X			X		X	X

	Address Line 2		X		X	X	X	X	X	X	X
	Telephone Number	X	X	X	X	X	X	X	X	X	X

Data Displayed

Unless a user is assigned a Personnel Area role (ZBHR_PA_R_PAV_HS03 for instance) the data that user can view will be restricted to the Organizational Structural Authorizations assigned to them in R/3. Most users fall into this category. When a Personnel Area role is assigned to a user, all organizational units assigned to the Personnel Area and the appropriate data will display. **A user cannot be assigned an Org Structural role and a Personnel Area role simultaneously.** This will cause all data to display.

Report Security

Report Role Assignment

Each report is assigned to a role. This assignment is made before the report is transported to production. The report role and the user role must be the same in order for the user to view it. If the roles do not agree, the “No Authorization” error message will display. Restricted attributes will not display unless they are assigned to the role.

Assigning Report Security to a New Report

The first consideration in deciding what role to assign a new report is the restricted attributes listed on page 2. If these fields are in the report, decide who should be able to view them. This will guide you in choosing which security role area (PA, BN, PY, etc.) to assign the report. A report can be assigned to more than one role. **The user role and the report role must agree for the user to view the data.** If the user role does not allow the viewing of restricted data, the user will be able to execute the report, but will not be able to view the restricted data.

For a user to view restricted data 3 roles must agree:

1. User role
2. Report role
3. Attribute role

All BW reports are assigned a security role(s). A list of these assignments can be located on the SAP Support website at:

<http://www.jhu.edu/hopkinsone/Support/PerformanceReporting.htm>

The hyperlink is labeled as [List of BW Reports with Security Roles](#)

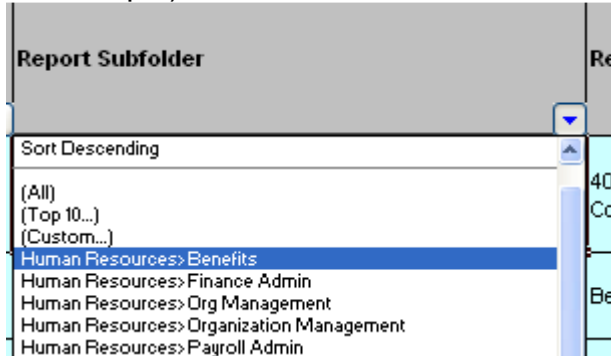

When accessed, an MS Excel worksheet will display.

Now you may want to search by Report Subfolder (Human Resources>Benefits for example)

Or by Report Name

Scrolling right will reveal a brief report description as well as the security role to which it has been assigned.

Report Name	Report Description	Security Sub-Area	BW Report Roles - Business Area or Personnel Area Level Access	BW Report Roles - Department Access
Benefit Election Analysis	Provides various queries of number of eligible and participating employees by benefit area and plan.	BN	ZBHR_BN_R_BEN_*** where *** is the personnel area OR DEPARTMENT ACCESS	ZBHR_BN_R_BEN_ORG

The user role and the report role assignments must agree for the user to view the report. The user with structural authorization (Department Access) will only be able to view the Organizational Units assigned to him or her in R/3. **Most users will have this role.** The user with a Personnel Area role will be able to view all Organizational Units assigned to that Personnel Area.
